Finally, some additional details about rebuttals:

- Rebuttals are per review.
- Rebuttals do not need to be submitted at the same time, and at any time up to the deadline (Thursday 3/28 AoE).
- While the length is short, multiple rebuttals per review are allowed in OpenReview.
- Links are allowed, but the link must be anonymous to preserve double-blind review, both in the URL and the destination. The link should also be a public link.
- Use the "Rebuttal" button instead of "Official Comment" for your rebuttals. If you previously submitted a rebuttal as a comment, please delete that and add it as a rebuttal.
- Currently, the "Rebuttal" text is only available to PCs, but it will be released to reviewers, ACs, and SACs on Friday 3/29.
- Use "Official comment" to talk directly with ACs or SACs, to request a new review or discuss an existing review. To do this, select the "Reader groups" to include just the ACs, SACs, or PCs, but not reviewers.
- You will have an opportunity to respond to any review submitted before the rebuttal deadline. We (the PCs, SACs, and ACs) are working closely with reviewers to get all of the final reviews in by then.
- Reviews will not be made public regardless of the paper acceptance. Only papers that have been accepted will have their titles, authors, and PDFs released publicly.

Thanks,
ICML 2024 Program Chairs

Please note that responding to this email will direct your reply to program-chairs@icml.cc.
